WORK EXPERIENCE

FEV Tutor

Oct 2022 – Jan 2025

Senior Data Analyst

Remote

- Led a team of data analysts to develop automated reporting using PowerBI for internal stakeholders and clients.
- Contributed to AI-driven initiatives to streamline quality assurance workflows and significantly enhance product quality.
- Designed and implemented data warehouses and database schemas, unifying data across multiple systems such as Salesforce, UserPilot and other third-party providers.
- Reduced manual reporting by 90% through Python scripting, SQL queries, PowerBI and Tableau Dashboards while boosting user engagement by 80%.
- Spearheaded research collaborations with Stanford University and the National Student Support Accelerator (NSSA), conducting advanced analyses from research trials.
- Guided product roadmaps for data-driven solutions, identifying new revenue opportunities, optimising costs, and enhancing the scalability of core products.

PetThinQ

Mar 2021 – Oct 2022

NLP Analyst

London, UK

- Extracted and cleansed data using Python libraries (Requests, BeautifulSoup, and Selenium).
- Utilised NLTK, spaCy, and regular expressions for comprehensive textual data preprocessing, optimising datasets for downstream analytics.
- Performed advanced topic modelling to categorise large datasets, enabling targeted and strategic analyses.
- Conducted exploratory data analysis to identify patterns and trends, informing key decision-making processes.
- Implemented and fine-tuned RoBERTa models for topic classification of review data, boosting accuracy and efficiency.
- Built multiple interactive Tableau dashboards, providing dynamic data visualisations and facilitating actionable stakeholder insights.

EDUCATION

Portsmouth University

Jul, 2019

Bachelor of Science, Mathematics

Portsmouth, UK

- **Upper Second Class**
- Treasurer of both the Water Polo and Swimming Societies

SKILLS & CERTIFICATIONS
